REPORT ON TARIFF

Democratic Conferees Submit Agreement to Minority Members

REPUBLICANS REFUSE TO SIGN

It is Formally Adopted by Vote of Eight to Six-Pig Iron, Cattle, Wheat and School Books to Free List-Income Tax Is Amended.

The conference report of the Underwood Simmons tariff bill representing Dawson, Ill., was probably fatally in the final adjustment of disputes between the senate and house over the former's amendments was made public when the Democratic managers submitted it for the first time to their Republican colleagues on the conference committee.

In the form in which the tariff bill ultimately will go to President Wilson for his signature, it carries many changes from the original Underwood bill passed by the house last May. While the senate gave way on many of its amendments, in the two weeks' fight in the conference committee, many important changes were retained and the general averages of rates of the house bill were reduced about 1 per cent ad valorem.

The report shows the following important alterations of the original Underwood house bill:

The tax rate on incomes above \$75, 000 was increased by a graduated scale from 3 per cent to 7 per cent and the income tax exemption reduced from \$4,000 to \$3,000.

Articles added to the free list include pig Iron, ferro mangenese ore, cheap grades of iron; cattle and other food animals; wheat, flour, flax, hemp, sugar refining machinery; school text books, sand blast machinery, indigo dyes, photographic moving picture films, cement, asphalt and many other mrticles.

The report was submitted to the full committee by Chairman Simmons. After a brief discussion it was approved by the eight Democrats, while the six Republicans, who had taken no part in the conference deliberations, refused to sign it.

INCOME TAX FOR 425,000

That Many Must Be Able to Account to Collector Next Year.

According to estimates by treasury experts, 425,000 American citizens must keep such accurate account of their incomes this year that they will be able to account to the income tax collector next year exactly how much they owe the government under the new income tax law.

Every single person (citizen or foreign resident) whose income exceeds \$3,000, and every person with an in come above \$14,000, is expected to report his or her receipts in detail to the government agents March 1 of each year.

The estimate indicates that the in come tax will produce \$82,298,000 from the 425,000 persons taxed.

Colwell Not Produced.

Frederick L. Colwell, alleged to have been the governor's "dummy" in certain Wall street ventures, was not produced by attorneys for the defense, and it appears more unlikely than ever that he will testify. Friends of the governor said that illness might prevent Colwell from taking the stand. They still were firm in their assertion, however, that he was not attempting to conceal himself.

Charges that the governor bartered his political influence will be taken up this week.

According to a charge made by Eu gene Lamb Richards in his opening address on behalf of the assembly managers, \$190,000 was expended from the general fund of the state for the Greene highway.
